**Geological Society books refereeing procedures**

The Society makes every effort to ensure that the scientific and production quality of its books matches that of its journals. Since 1997, all book proposals have been refereed by specialist reviewers as well as by the Society's Books Editorial Committee. If the referees identify weaknesses in the proposal, these must be addressed before the proposal is accepted.

Once the book is accepted, the Society Book Editors ensure that the volume editors follow strict guidelines on refereeing and quality control. We insist that individual papers can only be accepted after satisfactory review by two independent referees. The questions on the review forms are similar to those for *Journal of the Geological Society*. The referees' forms and comments must be available to the Society's Book Editors on request.

Although many of the books result from meetings, the editors are expected to commission papers that were not presented at the meeting to ensure that the book provides a balanced coverage of the subject. Being accepted for presentation at the meeting does not guarantee inclusion in the book.

More information about submitting a proposal and producing a book for the Society can be found on its website: [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

It is recommended that reference to all or part of this book should be made in one of the following ways:

MUKHERJEE S., MISRA, A. A., CALVÈS, G. & NEMČOK, M. (eds) 2017. *Tectonics of the Deccan Large Igneous Province*. Geological Society, London, Special Publications, **445**.

JU, W., HOU, G. & HARI, K. R. 2017. Dyke emplacement in the Narmada rift zone and implications for the evolution of the Deccan Traps. In: MUKHERJEE S., MISRA, A. A., CALVÈS, G. & NEMČOK, M. (eds) *Tectonics of the Deccan Large Igneous Province*. Geological Society, London, Special Publications, **445**, 297–315. First published online May 30, 2016, <https://doi.org/10.1144/SP445.1>

## THE GEOLOGICAL SOCIETY

The Geological Society of London (GSL) was founded in 1807. It is the oldest national geological society in the world and the largest in Europe. It was incorporated under Royal Charter in 1825 and is Registered Charity 210161.

The Society is the UK national learned and professional society for geology with a worldwide Fellowship (FGS) of over 10 000. The Society has the power to confer Chartered status on suitably qualified Fellows, and about 2000 of the Fellowship carry the title (CGeol). Chartered Geologists may also obtain the equivalent European title, European Geologist (EurGeol). One fifth of the Society's fellowship resides outside the UK. To find out more about the Society, log on to [www.geolsoc.org.uk](http://www.geolsoc.org.uk).

**The Geological Society Publishing House** (Bath, UK) produces the Society's international journals and books, and acts as European distributor for selected publications of the American Association of Petroleum Geologists (AAPG), the Indonesian Petroleum Association (IPA), the Geological Society of America (GSA), the Society for Sedimentary Geology (SEPM) and the Geologists' Association (GA). Joint marketing agreements ensure that GSL Fellows may purchase these societies' publications at a discount. The Society's online bookshop (accessible from [www.geolsoc.org.uk](http://www.geolsoc.org.uk)) offers secure book purchasing with your credit or debit card.

To find out about joining the Society and benefiting from substantial discounts on publications of GSL and other societies worldwide, consult [www.geolsoc.org.uk](http://www.geolsoc.org.uk), or contact the Fellowship Department at: The Geological Society, Burlington House, Piccadilly, London W1J 0BG: Tel. +44 (0)20 7434 9944; Fax +44 (0)20 7439 8975; E-mail: [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

For information about the Society's meetings, consult *Events* on [www.geolsoc.org.uk](http://www.geolsoc.org.uk). To find out more about the Society's Corporate Affiliates Scheme, write to [enquiries@geolsoc.org.uk](mailto:enquiries@geolsoc.org.uk).

## Contents

MUKHERJEE, S., MISRA, A. A., CALVÈS, G. & NEMČOK, M. Tectonics of the Deccan Large Igneous Province: an introduction	1
KALE, V. S., DOLE, G., UPASANI, D. & PILLAI, S. P. Deccan Plateau uplift: insights from parts of Western Uplands, Maharashtra, India	11
MITRA, S., MITRA, K., GUPTA, S., BHATTACHARYA, S., CHAUHAN, P. & JAIN, N. Alteration and submergence of basalts in Kachchh, Gujarat, India: implications for the role of the Deccan Traps in the India–Seychelles break-up	47
PATHAK, V., PATIL, S. K. & SHRIVASTAVA, J. P. Tectonomagmatic setting of lava packages in the Mandla lobe of the eastern Deccan volcanic province, India: palaeomagnetism and magnetostratigraphic evidence	69
NEMČOK, M. & RYBÁR, S. Rift–drift transition in a magma-rich system: the Gop Rift–Laxmi Basin case study, West India	95
MISRA, A. A., BANERJEE, S., KUNDU, N. & MUKHERJEE, B. Subsidence around oceanic ridges along passive margins: NE Arabian Sea	119
GUPTA, H. K., ARORA, K., PURNACHANDRA RAO, N., ROY, S., TIWARI, V. M., PATRO, P. K., SATYANARAYANA, H. V. S., SHASHIDHAR, D., MAHATO, C. R., SRINIVAS, K. N. S. S. S., SRIHARI, M., SATYAVANI, N., SRINU, Y., GOPINADH, D., RAZA, H., JANA, M., AKKIRAJU, V. V., GOSWAMI, D., VYAS, D., DUBEY, C. P., RAJU, D. CH. V., BORAH, U., RAJU, K., CHINNA REDDY, K., BABU, N., BANSAL, B. K. & NAYAK, S. Investigations of continued reservoir triggered seismicity at Koyna, India	151
MANDAL, P. Influence of Deccan volcanism/synrift magmatism on the crust–mantle structure and its implications for the seismogenesis of earthquakes occurring in the Kachchh rift zone	189
RAJARAM, M., ANAND, S. P., ERRAM, V. C. & SHINDE, B. N. Insight into the structures below the Deccan Trap-covered region of Maharashtra, India from geopotential data	219
MAURYA, D. M., CHOWKSEY, V., PATIDAR, A. K. & CHAMYAL, L. S. A review and new data on neotectonic evolution of active faults in the Kachchh Basin, Western India: legacy of post-Deccan Trap tectonic inversion	237
MISRA, A. A. & MUKHERJEE, S. Dyke–brittle shear relationships in the Western Deccan Strike-slip Zone around Mumbai (Maharashtra, India)	269
JU, W., HOU, G. & HARI, K. R. Dyke emplacement in the Narmada rift zone and implications for the evolution of the Deccan Traps	297
KAPLAY, R. D., BABAR, MD., MUKHERJEE, S. & VIJAY KUMAR, T. Morphotectonic expression of geological structures in the eastern part of the South East Deccan Volcanic Province (around Nanded, Maharashtra, India)	317
BABAR, MD., KAPLAY, R. D., MUKHERJEE, S. & KULKARNI, P. S. Evidence of the deformation of dykes from the Central Deccan Volcanic Province, Aurangabad, Maharashtra, India	337
Index	355

## **Dedication**

Dedicated to Peter Hooper (1931–2012) for his significant contributions on Large Igneous Provinces.
