## **2 Petrophysical Predictions Using Regression and Advanced Machine Learning Algorithm** 21

*Shubham Singh and Abhijeet Bhardwaj*

2.1 Introduction 22

2.2 State of the Art 23

2.2.1	Machine Learning Application for Exploration Activities	23
2.2.2	Machine Learning Application for Reservoir Characterization and Petrophysical Evaluation	25
2.2.3	ML Applications in Production	27
2.2.4	Type of Data in the Oil and Gas Industry	28
2.3	Case Study	28
2.3.1	Background	28
2.3.2	Preprocessing of DATA	30
2.3.3	Data Description (Training, Test, and Validation Sets)	32
2.4	Methodology	32
2.4.1	Case 1	32
2.4.2	Case 2	37
2.5	Results	39
2.5.1	Case 1	39
2.5.2	Case 2	42
2.6	Conclusion and Way Forward	44

## Preface

This edited book provides recent updates in hydrocarbon geology and economic issues. Several chapters present scientific issues and provide reviews of a few specific disciplines of petroleum geology.

**Refer to this book as:**

Mukherjee S, Dasgupta S, Majumdar C, Mandal S, Dasgupta T. 2022. Handbook of Petroleum Geoscience: Exploration, Characterization, and Exploitation of Hydrocarbon Reservoirs. John Wiley & Sons, Hoboken, ISBN 978-1-119-68003-1.

**Refer to an individual chapter as:**

Singh S, Bhardwaj A. 2022. Petrophysical Predictions Using Regression and Advanced Machine Learning Algorithm. In: Mukherjee S, Dasgupta S, Majumdar C, Mandal S, Dasgupta T (Eds) Handbook of Petroleum Geoscience: Exploration, Characterization, and Exploitation of Hydrocarbon Reservoirs. Wiley-Blackwell. John Wiley & Sons, Hoboken, ISBN 978-1-119-68003-1, pp. 21–49.

Soumyajit Mukherjee, Swagato Dasgupta, Chandan Majumdar, Subhadip Mandal, Troyee Dasgupta (**Editors**).

## Acknowledgments

We thank the **book proposal reviewers** for making us cautious in the phase of planning this book. We acknowledge the **authors** for contributing the chapters, and the **reviewers** for improving the articles. **Merryl Le Roux, Frank Otmar Weinreich, Andrew Harrison**, and the proofreading team (**Wiley Blackwell**) are thanked for their assistance. We are additionally thankful to the authors and the publisher for patiently waiting during the COVID pandemic time, in giving us significant extra time, when all of us were struggling to fit with the *new normal* way of life and faced uncertainty/drastic changes in the job (responsibilities). SM acknowledges **Subhobroto Mazumder** (Oil and Natural Gas Corporation Limited, Dehradun), **Sukanta Goswami** (Atomic Mineral Directorate for Exploration and Research, Hyderabad), **Mohit Kumar Puniya** (Survey of India, Dehradun), **Bikramaditya Mondal**, and **Md. Haroon Shaikh** (IIT Bombay) for assistance.

Soumyajit Mukherjee, Swagato Dasgupta, Chandan Majumdar, Subhadip Mandal, and Troyee Dasgupta (**Editors**)
